Phase 1, Roll-out and Support**

Dear Amit,

On behalf of the Committee and its Members, the Swiss Business Association would like to congratulate you for your the fantastic and speedy work delivered in designing and rolling out phase 1 of our website.

A special thanks goes to your colleagues Shah and Ida who were and are still very supportive with the initial roll-out as well as ongoing assistance for day to day problems to be solved. Their very pro-active and hands on approach is very much appreciated by all involved from our side.

Please keep up the excellent work and we are looking forward to collaborate on Phase 2 with all of you!

Thanks again and
