Dear Amit

THANK YOU

Thank you for helping to launch ASSAP 2006 and Partners new website.

It's been an absolute pleasure to do business with you. Both yourself and Hafiiz have done a brilliant job. Throughout the process, you had been most patient. Despite the tight schedule, you have demonstrated a high level of creativity.

Even before we chose you to do our projects, you were already giving us great suggestions on how best to save money. In addition, you have also offer a lot of practical advice which is highly useful for a non-technical person like myself. Indeed, you have lived up to your organisation's motto "*Transforming technologies into solutions*".

Above all, you have been very professional, reliable, friendly and understanding. What a true partner you have been to PARTNERS. Once again, thank you for your invaluable support. It's been a true pleasure working with you and Hafiiz and I will unreservedly recommend you to anyone.

Best regards

Delphine Ang
